

# The Impact of Sickle Cell on College Campuses in the Southeast

Project Title	The Impact of Sickle Cell on College Campuses in the Southeast
Project Summary	Create a Photovoice project that will focus on college-aged adults living with sickle cell disease while attending college in order to increase awareness on the challenges this population encounters if living on campus.
Country	United States
Country/Region of Focus	United States

## Project Description

Completed Photovoice project highlights college-aged adults living with sickle cell disease while attending college. The finished project will be featured among other presentations via a webinar platform as well as other activities in observance of Sickle Cell Awareness Month.
